

CHRISTMAS IS COMING

By 7.a

Nowadays Christmas is all about the gifts. It isn't like it used to be. In the past children were happy with a little gift.

Now kids are happy if their gift is bigger than them. Our biggest gift for Christmas are holidays. Today parents spend a lot of money just for gifts for their children.

The fact that gifts are very, very important today is recent death of a worker in a mall who was run over by the mad crowd of shoppingholics.

In malls in Christmas period there are big queues. There are a lot of shoppers.

Merchants abuse Christmas holidays to make more money. They resell things over and over.

To us, Christmas is about gifts and holidays, and we know that it isn't good but it makes us happy. Christmas has lost its real value.

Gifts, gifts, and only gifts. Every second we are talking about gifts. On Christmas day everything what we know to say is a GIFT.

That is really bad. Let's think about it little bit more!
